

# ELECTRICAL SERVICES

## Commercial/Industrial Construction

Lynn Electric has established itself as a strong force in the commercial / industrial electrical industry. We work with leading construction companies to provide services ranging from new construction to commercial remodels. A few of our most recent projects have included elementary schools, restaurants, medical and dental offices, churches and banks.

**Bella Sera**  
Our experience and reliability can reduce the time and expense of your new construction project.

**United Methodist Church**  
Our design/build capabilities include the expertise to plan your project in the most intelligent, efficient, cost-effective manner, and then execute that plan with the highest quality workmanship.

**KU's Danforth Chapel**  
Severely damaged by the high winds from a micro-burst, weddings now take place in this lovely, renovated chapel.

**Locust Street Retail**  
The challenge of remodeling aging properties is eased significantly when you engage the experienced Lynn Electric team.

**Harley Davidson Motorcycles**  
We have vast experience working with contractors and architects on projects ranging from ground-up new developments to remodels and renovations of existing properties. This Lawrence Harley Davidson Motorcycles dealership was transformed from a former grocery store.

**Heavy-duty Service Panels**  
Volts, what volts? Lynn Electric has established a reputation for safety and quality in commercial/ industrial electrical construction.

**Oread West Business Park**  
Lynn Electric's capabilities range from ground-up construction to the servicing of existing facilities. We understand the electrical demands, specifications, and standards of commercial construction.
